### Summary of reasons for decision:

The image shows a naked female with her breasts and genital area covered by her arms. Due to concerns about her age the Classification Office has considered whether the subject is a young person whose nudity may be being exploited in terms of s3(3)(b) of the Films, Videos, and Publications Classification Act 1993 (FVPC Act) and concluded that she is not. Further, there is there anything overtly sexual about the image that would even make it a matter of sex. Therefore the image does not get through the FVPC Act subject matter gateway and can only be classified as unrestricted.
